DEC

Via ferrata "Armin Gazić" je kratka i zanimljiva bez zahtjevnih i prevjesnih detalja i sa lijepim pogledom na okolinu u penjanju i silasku.

Za koga je: kondiciono i tehnički spremne osobe

Kako do ferate: Voziti do Mostara prema izletištu Fortica i nastaviti putem do sela Gnojnice. U selu na raskrsnici ostaviti auto na proširenju i krenuti makadamskim putem koji vodi prema vrhu Brasina. Pratiti planinarsku markaciju koja presejeca serpentine puta i skraćuje vrijeme hoda. Po dolasku na veliku zaravan sa pastirskim objektima planinarska markacija skreće u lijevo preko livada dok makadamski put nastavlja desno serpentina prema vrhu Brasina. Pratiti stazu sa planinarskom markacijom do planinarskog skloništa Brasina odakle staza za feratu skreće lijevo na makadamski put koji vodi prema Rujištu i planini Prenj. Nakon 1h hoda od planinarskog skloništa staza skreće desno u šumu i vodi do amfiteatra ispod sjeverne strane Veleža. Staza koja ide kroz šumu nije najbolje marikrana i treba voditi računa prilikom kretanja. Po dolasku u amfiteatar staza do ulaza u feratu vodi u lijevo i uzbrdo skroz do pod stijenu. Na stijeni kod ulaza u ferratu je postavljena tabla koja je lako vidljiva.

Pristup: 3 sata, 30 minuta

Dužina ferate: 350m

Visinska razlika: 180m

Tehnička zahtjevnost: B/C

Prosječno vrijeme prelaska: 60min

Silazak sa ferrate je vrlo jednostavan. Pratite označenu planinarsku stazu koja vodi do planinarskog skloništa Brasina i dalje nastavlja do sela Gnojnice. U slučaju loše vidljivosti držati se makadamske ceste koja vodi sa vrha Brasina do sela Gnojnice. Obratite pažnju na krušljivost stijene i vodite računa o penjačima koji se nalaze ispod vas.

The "Armin Gazić" via ferrata is short and interesting, without demanding or overhanging details, offering a beautiful view of the surroundings during both ascent and descent.

Who is it for: Physically and mentally fit adults with solid technical/climbing knowledge

How to get there: Drive to Mostar towards the Fortica excursion site and continue to the village of Gnojnice. At the junction in the village, park your car in the clearing and follow the gravel road towards the peak of Brasina. Follow the marked hiking trail that intersects the road's switchbacks, shortening the walking time. After arriving at a large plateau with shepherd structures, the hiking trail turns left over meadows, while the gravel road continues right through the switchbacks towards the peak of Brasina. Follow the hiking trail with marked signposts to the Brasina mountain lodge, where the trail for the via ferrata turns left onto the gravel road leading towards Rujište and Mount Prenj. After about 1 hour of hiking from the mountain lodge, the trail turns right into the forest and leads to the amphitheatre below the northern side of Velež. The trail through the forest is not well-marked, so be cautious while navigating. Upon arriving at the amphitheatre, the trail to the entrance of the via ferrata leads to the left and uphill, all the way to the base of the rock. There is a clearly visible information board on the rock at the entrance to the via ferrata.

Approach: 3 hours, 30 minutes

Length of the via ferrata: 350m

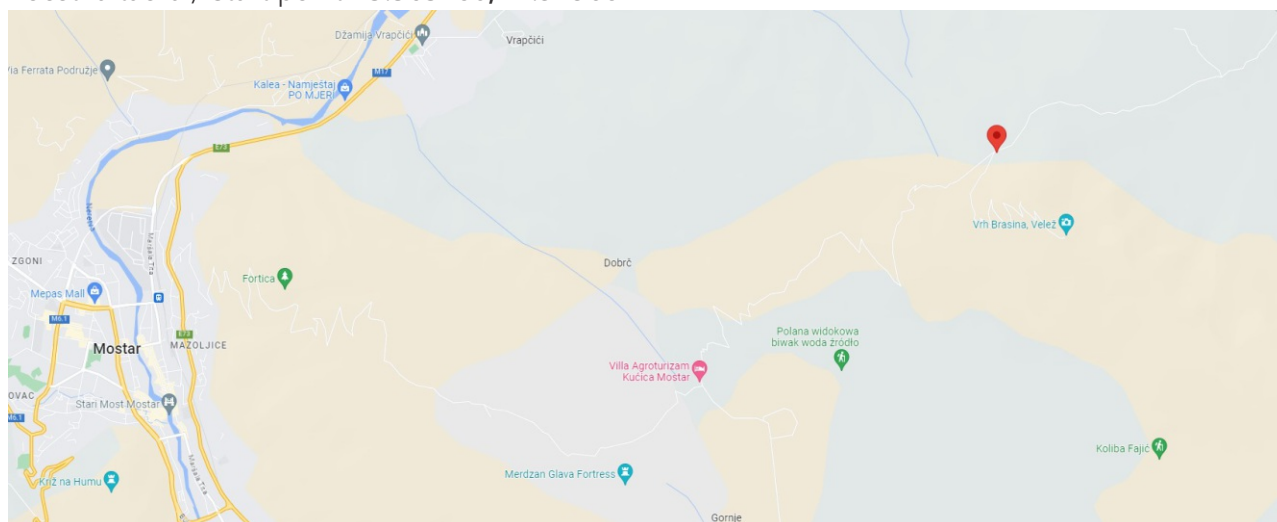

Elevation difference: 180m

Technical difficulty: B/C

Average crossing time: 60 minutes

The descent from the via ferrata is straightforward. Follow the marked hiking trail leading to the Brasina mountain lodge and further to the village of Gnojnice. In case of poor visibility, stick to the gravel road that leads from the peak of Brasina to the village of Gnojnice. Pay attention to the friability of the rock and be mindful of climbers below you.
